

WHITE SHINE

WhiteShine In-Office 5 Patient Whitening Kit (open system works with any Whitening Lamp), is what you need at your dental office for the most effective bleaching solution for your patients. Formulated with a clinically safe 35% Hydrogen Peroxide (H_2O_2) and a special formula to support enamel building and exclude sensitivity. A typical cycle of bleaching is three consecutive cycles; however, our product can achieve what you desire within 1 cycle of 5 to 10 minutes, with the ability to go for a second or a third cycle based on your patient's need.

OUR 5 PATIENT KIT CONSISTS OF THE FOLLOWING:

- ✓ Dual Barrel Syringe Whitening Gel (35% Hydrogen Peroxide) (2.6g/2.6ml) : **5 Pcs**
- ✓ Gingival Barrier (1.0g/1.0ml) : **5 Pcs**
- ✓ Remineralization Syringe Gel (3.0g/3.0ml) : **2 Pcs**
- ✓ Mixing Tips : **5 Pcs**
- ✓ Shade Guide : **1 Pcs**
- ✓ Instruction Manual : **1 Pcs**
